Passionate undergraduate with a strong interest in data science. Currently building foundational skills in statistics, programming, and data analysis through coursework, with exposure to tools like Python and SQL. Eager to learn, collaborate, and apply analytical thinking to real-world problems. Excited to grow hands-on experience in a team environment where curiosity and attention to detail make an impact.

EXPERIENCE

PROJECT SUPERVISOR (PART-TIME)

Central Construction | Ingiriya

JAN 2023 – PRESENT

Managed day-to-day project coordination, ensuring tasks were completed accurately and on schedule. Identified inefficiencies in project workflows and introduced structured improvements that increased overall accuracy. Maintained detailed records and documentation, supporting data-driven decision-making for project leads.

EDUCATION
